

Lift My Skirt Lyrics:

I got to be Awake

I got to be Alive

Cause there's only so much time

I got to forgive

I got to let go

cause I don't know about tomorrow

I got to unzipper

I got to undress

I got to dance all up in this mess

Chorus:

Cause I don't know, what the future holds

Got to give all I got to this world yeah

Cause I don't know, what the future holds

Got to feel what the world's got to give me

Instrumental (skat)

Got to lift my skirt (Woohooo)

Roll around in the dirt

Chase the bees to the honey comb

Got to dive right in there

saint or sinner

sweet of sour it don't matter the kind

pour it on thickly

drink it up quickly

pull the stinger from my finger real slow

go to be awake

got to be alive

cause there's only so much time

Time to good to waste on missing out on what I might find

Chorus:

Cause I don't know, what the future holds

Got to give all I got to this world yeah

Cause I don't know, what the future holds

Got to feel what the world's got to give me
