

Nature Reflects Nature

Said the sky to the water, look at me tonight
I've spread out my blanket of bright lights.
Look at me lover, open your eyes
This is our time. The moon is rising.

Oh waved the ocean to the sky
My adulation for you shines
See how I emulate your blazing fire
I blush bioluminescent like

Noctilucent starry brail
My love poem to you up there
undulating in the brine
I make you dizzy every time.

yes my love said the sky
Your adulation is divine
Always in your evening gown
Gazing up as I gaze down

Nature Reflects Nature, Nature Reflects Nature, Love reflects Love, Nature Reflects Nature,

The ocean swelled unashamed
The sky dropped a star her way
It fell into her silently
They go like so for eternity

I'm your mirror and you are mine
said the ocean to the sky
All love stems from you and me
My waters to your galaxies

Nature Reflects Nature, Nature Reflects Nature, Love reflects Love, Nature Reflects Nature,
