

Up and Fly Away

A swivel and a swerve beside me
Late at night fast asleep
your hand makes it's way around my leg
and I sink back into the ocean deep

Shimmery wavy water
sleeps lifts from my eyes
two heavy curtains letting in
the moonlight, your thigh

(Bridge) You still the apple of my eye
it won't back down it won't subside
bright as the runway lights
bet your lucky stars...your gonna fly with me tonight

(Chorus) Up and Fly away, up and Fly away
up and Fly away, up and Fly away
up and Fly away, up and Fly away way way

Years in the making of you
years in the making of me
I still have a crush and you still blush
when my kiss lands upon your cheek...

The pitter patter of feet
sometimes gets in between
they run up and down, upon a ground
made of love between you and me...

(Bridge) You and me, you and me
we made of elbow grease
we made of thank you and please
Step back, and take a running leap with me

(Chorus) Up and Fly away, up and Fly away
up and Fly away, up and Fly away
up and Fly away, up and Fly away way way

(Bridge) When we're a hundred and three
you gonna go with me
wrinkled hands and skin like sand
we're gonna turn into the autumn leaves

(Bridge) And catch a gust of wind
Where we'll do loop-de-loops and spin
two lovers on the ground will catch us coming down
and we'll do this thing all over again, my friend

(Chorus) we'll go..up and Fly away, up and Fly away
up and Fly away, up and Fly away
up and Fly away, up and Fly away way way

up and Fly away, up and Fly away
up and Fly away, up and Fly away
up and Fly away, up and Fly away way way

(ooh's...)
